### A PROCLAMATION.

#### THE NEW EMPEROR ISSUES A PROCLAMATION.

A Marriage in High Life—The Call Condemns Eastern Conservative News Agents.

BERLIN, June 19.—The following is Emperor William's proclamation in full:

"To my people! God's decree has once more plunged us into a most poignant sorrow. The tomb has scarcely closed over the mortal remains of my never to be forgotten grandfather, when his majesty, my beloved father is also called from this life into everlasting peace. Heroic energy, prompted by Christian sacrifice, with which, despite his suffering, he knew how to fulfil his kingly duties, seemed to justify the hope that he would be preserved to fatherland still longer; but God willed differently. The Royal sufferer, whose heart beat responsively to all, was great and beautiful. He had only a few months granted to him to display on the throne his noble qualities of mind and heart, which won him the love of his people. Virtues which adorned him and victories which he had won on the battle field will remain a grateful remembrance as long as German hearts beat. An imperishable glory will illuminate his chivalrous figure in the history of the fatherland. Called to the throne of my fathers, I have assumed the government looking up to the King of Kings and have vowed to God that after the example of my father, I will be a just and clement Prince to my people, and that I will foster peace and the fear of God, that I will promote the welfare of the country and that I will be a helper of the poor and distressed and true guardian of right. In praying to God for strength to fulfil the duties which His will imposes on me, I am supported by confidence in the Prussian people, which a glance at our past history gives me."

Signed, WILLIAM."

WINNIPEG, June 19.—The Call this morning condemns the action of the Eastern Conservative press in opposing the appointment of Mr. Dewdney as Minister of the Interior. It claims that the Northwest is entitled to representation in the cabinet. The Interior Department is a most appropriate one and that Mr. Dewdney is pre-eminently qualified for the position.

The writs for the general elections were issued yesterday, nominations take place on the 4th and polling on the 11th of July. Nearly all the enumerators have been appointed returning officers. Premier Greenway will be elected by acclamation. Duncan McArthur is opposing Mr. Norquay, but the chances are largely in favor of the latter.

VICTORIA, June 18.—Intelligence reached this city this morning that Walter E. Blackett who was engaged in constructing the works necessary for the shipment of coal from Mr. Dunsmuir's new mines at Comox was drowned yesterday in Haynes Sound. It appears that Mr. Blackett and Mr. Gibson were aboard of the steamer Dunsmuir coming from the works and desiring to land at some convenient point were lowered into a boat which the steamer towed a short distance. After the steamer left, the boat somehow upset, both men falling into the water. Blackett sank at once, while Gibson clung to the boat till aid came, when he was rescued from a watery grave and the fate which befell his comrade. Up to last accounts no trace has been discovered of Blackett's body. He was married a few months ago to a young lady belonging to Nanaimo. The deceased was in the employ of Mr. Dunsmuir for some time, either as contractor or superintendent of works and by that gentleman was held in high esteem. His life was insured for a considerable sum.

He says that there is no doubt that the memorialists

will approach the Canadian executive. Lord Lansdowne adds that he told Lord Knutsford: "I trust that any suggestion that might be made with this object in view would receive the attentive consideration of the Colonial Office. I pointed out that the memorial was signed by men whose opinion entitled it to the utmost respect."

The Bishop of Limerick in his synodical letter puts forth hints that the schismatical demurrers against the Papal Receipt in his diocese will be excommunicated. The slanders against himself he declares are malicious lies, concocted by the leaders of anti-Receipt against his spiritual authority. He has always been a Nationalist, but will not accept disobedience to the Pope as a test to Nationalism.

He said that it was entirely erroneous that the Canadian Pacific were hostile to the Hudson Bay railway enterprise. The company took the strongest possible interest in the concern, which, if practicable, would bring the wheat area of the Northwest still nearer the markets of the old world.

### The Dead Emperor.

Berlin, June 18.—Emperor Frederick died at Castle Friedrichsruh, at 11 a. m. yesterday within a few feet of the in which he was born. No material change in the Emperor's condition was apparent during the night. He seemed to be apathetic until his death. The Emperor watched by her dying husband's side from four o'clock yesterday morning until he died. Berlin is stirred with intense excitement. The people are standing on the streets watching the bulletin board and asking each other for details of their beloved monarch's death scene. All the Royal family, numerous ministers of state and foreign ambassadors were present at the death chamber when Emperor Frederick died. A ministerial council was held in the morning just before the Emperor's death. Prince Bismarck, who presided, was greatly excited and made the meeting as short as possible. The patience and endurance of the Emperor were wonderful. A physician who was intimately connected with the staff of attendants at Charlottenburg said to-day that it was a mystery even to his physicians how he held out so long in the face of such adverse circumstances and that the world would never know the actual sufferings that have been experienced. In accordance with the wishes of the late Emperor and of the Empress, Emperor William, 2nd, has ordered that the funeral will be held on Monday morning. Bismarck had called to bid his dying master farewell, the Emperor was thoroughly conscious and taking the hand of the aged Chancellor in his own feeble hand and motioning to the Empress to draw nearer, he took her hand and joined it with that of Bismarck, thus giving a silent and pathetic token of his desire for a reconciliation of all differences between his wife and the prime minister.

Not a vessel had sailed from Princetown, Gloucester, Marblehead, or Portland since the treaty, whose master and crew had not sent back an execrating protest against the treaty. Hale spoke of the enormous subsidies to the C. P. R. and said that the course of Great Britain in that matter ought to be watched with jealous scrutiny by every American administration.

BERLIN, June 14.—The Emperor is gradually nearing his end. His doctors give no hopes of him. Lockjaw has set in. Bismarck has given preliminary orders for preparations for the succession of the Crown Prince. All the members of the family are at his bedside.

LONDON, June 13.—The death of Col. King-Harman, notwithstanding his recent illness, was very unexpected. He had been suffering from diabetes for several months, and a short time ago took a trip to the Cape of Good Hope in the belief that he would derive benefit from the voyage. He was much better while on the seaboard, but sustained a relapse a few days after his return to London and became prostrated. His physicians ordered his immediate removal to his estate at Rockingham, County Roscommon, Ireland. The immediate cause of his death was stricture of esophagus, from which ailment he had lately suffered greatly. Col. King-Harman was formerly a noted athlete and his exploits in Roscommon, his native county, are spoken of as exhibitions of strength and agility unequalled. He began his parliamentary career as a Home Ruler and a disciple of Butt, sitting for Sligo, and has sat for or contested four different Irish constituencies. Upon the formation of the Land League Colonel King-Harman became estranged from the Home Rule Party and drifted into the Conservative-Unionist ranks. His secession from Home Rule put an end to his parliamentary aspirations in his own section of Ireland where he was honorary colonel of the military of Roscommon and he was compelled to seek a return at the hands of English electors. He will probably be succeeded as Parliamentary Secretary for Ireland by Colonel Joseph West Ridgeway, the present Under Secretary. Whether the death of Colonel King-Harman will put an end to the parliamentary discussion of the matter of paying the salary of his office out of the special appropriation is as yet regarded as an open question.

NEW YORK 13.—Sterling on London 60 days, 4.87½; sight drafts, 4.89½; Wheat, 94½ cash; 91½ June; 92½ July; 93½ August; 93½ September. Canadian Pacific Railway, 56.

The Dominion Government loan tenders will not be opened till Friday. It is impossible, therefore, to say the measure of success obtained. It is believed, however, to be favorably regarded, and the stock is already from 3 to 4 premium over the minimum price. It is pointed out that this is the first colonial 3 per cent. loan.

### HANGED AT REGINA.

GADDY AND RACETTE PAY THE  
EXTREME PENALTY.

For the Brutal Murder of the Settler  
Hector McLeish Near Wolsley  
in May, 1887.

REGINA, June 13.—James Gaddy and Moses Racette were hanged this morning at twenty-two minutes and nine seconds past eight, for the murder of Hector McLeish, near Wolsley on May 31st, 1887, the hangman being Jack Henderson, who performed the ceremony for Riel. Racette protested his innocence of being a principal in the crime to the last and left a confession giving his version of the affair. The prisoners were accompanied to the scaffold by priests and after Racette had made his statement, the Lord's prayer was said and the trap sprung. The men died without a struggle. Dr. Walloughby felt their pulses at 8:24, but they were not dead yet. At 26 minutes and 30 seconds past eight, Dr. Dodd explained they are dead.

The murderers bodies were claimed by their friends and will be buried in the burying ground north of the town.

#### The Crime

For which James Gaddy and Moses Racette paid the death penalty this morning on a Regina scaffold, may be briefly summarized.

Both were half-breeds, the former a slightly built effeminate looking man of 22 years, generally lived on the Crooked Lake Indian Reserve with his father, and the latter, a strongly built muscular fellow of smart appearance and pleasing address, aged 26, had his home about a mile south of Wolsley. Gaddy was married and had a wife and one child a year and a half old. Racette at the time of the McLeish murder was unmarried, but shortly after the crime entered the "holy bonds" after his flight to Montana.

Early in May, 1887, the pair of breeders gravitated to Qu'Appelle Station and got employment here and there whenever they felt inclined to earn an honest living. According to Gaddy's story to a Sun reporter about the middle of the month Racette proposed the purchase of arms to go out west on a horse stealing expedition. Gaddy liked the idea and after purchasing a couple of pistols the horse-thieves took the train for Regina. From here they walked to Moose Jaw, which they reached on the 26th of May. Racette, who was the more cunning and plausible of the two, "bummed" around a good deal for grub and money, passing himself off as an ex-C. P. R. fireman.

On the night of the 28th of May Mr. Baxter, of Moose Jaw, missed his pony, and Whitford, a Swift Current half-breed, on his way to Regina, who had camped at Moose Jaw, found his two ponies and black mare mysteriously disappear the same night also. Gaddy and Racette took the three ponies and shortly after midnight on the 28th and rode towards Regina with the spoil. With the murderers was a third man—a half-breed—not yet captured.

On the 29th of May the horse-thieves passed McLean Station and had supper at a house six miles south of Qu'Appelle. About 2 o'clock on the morning of the 30th one of the thieves drove up to a tepee about five hundred yards from McLeish's stable, a short distance from Qu'Appelle, and tried to trade a saddle with the Indian Petrepe. After this transaction the trio proceeded towards the house of McLeish, and from a stable stole the horse which led to the owner's brutal murder and the hanging of the murderers.

About 8 o'clock in the morning McLeish informed his neighbor, J. R. Brown, (who occupied the same section with the murdered man) that his horse was stolen during the night and asked the use of Brown's pony to hunt up the thieves. Brown not only lent his pony, but volunteered his services to McLeish. Both neighbors had known each other since 1881, and commenced to homestead on the same section in 1882. At Qu'Appelle the two men were joined by Sergeant Tyffe of the N. W. M. P. and several citizens. All started in pursuit to Indian Head, but taking different directions. McLeish and Brown kept the north side of the trail and arriving at the Assiniboine Reserve learned that the thieves had been there to dinner, after which they rode off with the stolen property. About 10:30 p. m. the search party reached Wolsley and put up at Pritchard's hotel. Constable Matthewson, of the N. W. M. P., was seen and it was agreed that McLeish and the constable would walk to Racette's about a mile from town, and keep watch till morning when the other searchers would ride out with the horses.

The night was somewhat dark. When McLeish and Matthewson got close to Racette's dwelling, within 200 yards of the house, the two men hid in the bluffs and waited developments. In a few minutes Moses Racette walked out of the house and began saddling his pony to start off

further east, when the policeman approached and laying his hand on the thief's arm said, "I arrest you in the Queen's name for horse stealing." Racette shook Matthewson off and thinking discretion the better part of valor asked the constable to wait until he had unsaddled his pony.

Gaddy now walked out and began saddling his pony, when McLeish walked towards him to prevent his riding off. Just then the third man stealthily approached Matthewson and felled him to the ground with a blow on the head. While Moses Racette and the third party pounded the constable and disarmed him, Gaddy fired three shots at McLeish who cried out "O my God I'm shot!"

A fourth man was present with the breeders in the person of Joe Racette, senior. The constable was allowed to get up after being disarmed and approached McLeish, who told him he was suffering much pain from wounds inflicted by the revolver of Gaddy. The unfortunate man was carried in doors by Matthewson and Racette, senior, while bleeding internally and vomiting blood. Meanwhile the three thieves held hasty consultation. It was agreed that Moses Racette, on pretence of going for a doctor with Matthewson, should accompany the latter a little way and on a given signal was to leave the constable who should become a mark for Gaddy's rifle. When on the Wolsley trail a few minutes a whistle was heard, upon which Moses Racette ran to the left. Matthewson was fired upon three times, but none of the shots took effect save one, which left a slight mark in the stripe of his pants. In running off the constable fell and was seized by Moses Racette, Gaddy saying he would not fire again if the policeman made no resistance. The men then made for the house and while Matthewson remained there under threat of instant death if he left for some time, the murderers rode off to the residence of Charles Pelletier, at the east end of Crooked Lake Indian reserve, arriving there at mid-day and departing late in the evening after washing and feeding themselves.

At 1 o'clock on the morning of the 31st of May the constable reached Wolsley. Dr. Hutchinson was soon at the scene of murder. McLeish was conveyed to the hotel at Wolsley where he died at 9:40 a. m. The mounted police surrounded the Crooked Lake reserve and tried to corral the murderers, but the latter quietly slipped out after a few days close hiding and got safely across the line into Fort McInnis, Montana. Gaddy looked around and found himself employment on a sheep ranch, while Racette sought himself a wife amongst the Tankees half-breeds.

On June 11th, Lieut.-Governor Dewdney offered \$500 reward for the capture of the murderers, and on the same day photographs of the murderers sent to Major Field, Indian Agent at Fort Belknap, Montana, to Indian Agent Crampe, at Devils Lake; to the officer commanding the United States troops at Fort Assiniboine and to J. G. Baker & Co., Fort Benton. The fugitives were arrested by Sheriff John W. Beck, of Lewistown, Ferris County, Montana, assisted by W. H. Simons, who received the \$500 reward on the 10th of April last from D. L. Scott, Q. C., of Regina.

On the 28th of August the Under Secretary of State at Ottawa, transmitted the extradition warrant for Gaddy and Racette to Inspector G. E. Saunders, N. W. M. P., who left Maple Creek on the 7th of November for Fort Benton, with one sergeant, one corporal and eight mounted men, with two teamsters and two wagons. On the 12th of November he left Fort Benton with the prisoners and reached Regina on the 18th, when he handed Gaddy and Racette to the gaol authorities there. The trial took place on the 28th of February last at Wolsley, when they were convicted and sentenced to be hanged.

Mr. Andrew Kennedy, Government contractor, went east some weeks ago, ostensibly to look after a contract for building the new Calgary court house. How he succeeded in that part of his business we have not learned, but as will be seen in another column, his mission was not devoid of court and contract, he having entered into a contract for life, such as "court" generally precedes. Mr. Kennedy is heartily welcome home with his bride.

Very Lively Meeting.—Protective Tariff  
A Big Day in Chicago.

CHICAGO, June 19.—The republican convention opened this morning. Speeches made by the chairman of management committee Jones and temporary chairman Thurston. CHICAGO, June 19.—M. M. Eatce, of California, will undoubtedly from every indication to-night, be the permanent chairman of the Republican national convention, which opens to-morrow. The opinion is freely expressed that the fight will narrow down to a Blaine and Sherman contest.

MONTREAL, June 13.—Word has been received from Mr. Donald Macmaster, Q. C., who is now in London, Eng., for the purpose of making an application to the judicial committee of the Privy Council for permission to appeal from the judgment of the Supreme Court in the Glen-garry election case, that he has obtained the opinion of Sir Horace Davey, Q. C., the leader of the English bar, which is to the effect that the application will likely be granted on the ground that the construction of the act, and the validity of the order extending the time for trial, are questions of general interest, and on account of the difference of opinion amongst the Judges of the Supreme Court, the bench having been divided three to two.

On the merits Sir Horace also thinks the appeal will be successful, as, according to the true construction of the act, the time during which any session of Parliament may last is excluded from the computation of the six months' delay within which the petition must be tried. Furthermore, he is of opinion that the court had jurisdiction to extend the time, notwithstanding the lapse of six months.

VIENNA, June 13.—The Emperor Francis Joseph received the Austro-Hungarian delegation at Pesth to-day and expressed his entire satisfaction with the amicable relations of Austria with the powers. The large military credits demanded did not, he said, indicate impending trouble, but were asked because other European states had augmented their forces. He earnestly desired peace and confidently believed it would be continued.

The Government is prepared to spend \$31,000 on armaments for Esquimaut; \$10,000 on submarine stores and \$10,000 on submarine buildings. The real question of the present time for the Imperial Government and Canada was that of the garrison.

#### MORE IMMIGRANTS.

A Colony of Icelanders Arrive this Morning to settle in this District.

Mr. S. J. Bjornson, of Pembina county, Dakota, who spent several weeks about Calgary last winter for the purpose of learning all about this country at the most unfavorable time of the year, returned to Calgary this morning with his first instalment of settlers from Dakota for the Calgary district, the party comprise 53 souls all told. There are thirteen married men and their families, two of the men remained behind and are coming on with their freight and live stock. On account of the 90 days quarantine they had to sell most of their cattle and only bought a few cows in Manitoba. They have considerable household goods and quite an outfit of tents with them, so that they will be able to go on to their location reserved by the Government near the Red Deer river almost at once and commence building their houses. A few of these new comers will likely settle in the Nose Creek valley as they want to go into market gardening, dairying and keeping fowls and, therefore want to be near town. This colony are, as we have mentioned before, from Pembina county, Dakota, about 30 miles south of Manitoba. They hired teams to drive them to Gretna, Man., where they took train on the 14th and arrived here at 2:45 o'clock Monday, the 18th. Supt. Niblock, of the

C. P. R. complied with the request of Mr. Bjornson to let the car with the Icelanders be left off at Calgary, so they were not disturbed in their sleep till the sun light of a beautiful morning as ever shone on an immigrant in a strange land, wakened them from their slumbers. If this party are favorably impressed with their new home, some 30 or 40 more families will follow from the same place later in the summer. In the absence of the mayor, Mr. Orr on behalf of the council, met the train in company with Mr. Miquelon, the immigrant agent to look after these folk on their arrival. They are now comfortably housed in the immigrant sheds.

# UNPLEASANT RUMORS.

That Mr. H. M. Bennett, Cashier of the Equitable Life.

Toronto, June 14.—For some days past sensational rumors have been in active circulation in street and sporting circles concerning Mr. H. M. Bennett, ex-cashier of the Equitable Life Assurance Society and secretary-treasurer of the Toronto Baseball Association. This morning a Telegram reporter called at the office of the company on Toronto street, with reference to the reports. The manager was not in, but one of the agents said that Mr. Bennett had left the company's employ in consequence of an alleged irregularity.

"Is Mr. Bennett short in his accounts?" the reporter asked.

"There is a slight discrepancy," the gentleman replied, "but the company will take no steps to recover it. He loaned a sum of money, the funds of the company I understand, to a friend, who failed to fulfil his obligation when the time for its liquidation expired."

"Did the company not hold a bond of indemnity from a guarantee company?" the reporter inquired.

"Yes, but we will not bother about the collection of it, the amount of the deficiency being so small," he responded.

"Has Mr. Bennett severed his connection with the company?"

"Yes, he has tendered his resignation. His associates, who are well known, were perhaps a trifle too high for him."

"Is Mr. Bennett in the city?"

"I am not in a position to say whether he is or not, but I will say that he is not many miles away."

Mr. Bennett has been with the Equitable Life for sixteen years, having held the position of cashier for that period.

Washington, 15.—General Sheridan's condition is so much improved this afternoon that his physicians have decided to omit the regular afternoon bulletin. The General has been sleeping nearly all the morning and has taken much nourishment in the shape of beef tea and milk with apparent relish. Up to Tuesday his stomach refused to digest beef tea but now he is able to retain it without trouble. It is 4 days since the last occurrence of heart failure and its absence is looked upon as being very encouraging.

New York 15.—Judge Benedict today denied the application for a writ of habeas corpus made by "hoolie" alderman Joehne, who is serving 7 years in Sing Sing penitentiary.

Philadelphia 15.—It is stated that the Calumet and Hecla Company intend to stop operations at their mine at the command of the foreign copper syndicate.

## The Tariff Bill Debate.

Washington, June 14.—In the House today in committee of the whole the debate on the Tariff Bill was resumed. Flax heckled, known as dressed flax, was struck from the free list; the motion to from the free list hemp, manilla and other substitutes for hemp was lost. A motion was made by Mr. Kelly to strike jute butts from the free. In speaking of it his time expired and he made a formal amendment to gain time. A further heated colloquy ensued, Mr. Scott stating that the interests of the country were jeopardized by the discussion of the bill. No business was could tell from day to day what he ought to do in order to manage his business. A vote should be reached as soon as possible. He believes in the bill but an uncertainty was not advisable. He (Kelly) then withdrew his motion and his amendment to place jute butts on the free list was rejected and the House adjourned.

Mrs. Michael Harper's mortal remain were laid in their last resting place yesterday afternoon. The notice of the funeral was very short, it having been first announced for Friday afternoon, but afterwards, on account of the weather, changed to Thursday. At 2 p. m. a large number of citizens assembled at the residence of Mr. Harper, from whence the remains were carried, followed by the mourners and citizens to St. Mary's church, where a beautiful choral service was conducted by the Rev. Father La Bis and the choir. There was a large congregation present, which formed in procession to the cemetery, where dust was returned to dust and ashes to ashes, to remain till the resurrection morn. We understand that mass for the repose of Mrs. Harper's soul, will be celebrated next Sabbath morning.

## INDIAN COMMISSIONER.

### HAYTER REED APPOINTED INDIAN COMMISSIONER.

Contracts for Indian supplies let—Immigrants and the Northwest arrive at Quebec.

Shamrock defeat Toronto.

Montreal, June 18.—The Shamrock team beat the Toronto team 3 to nothing on Saturday.

Regina, June 18.—Hayter Reed has been appointed Indian Commissioner, with Forget as Assistant.

#### Contracts for Indian Supplies.

OTTAWA, June 18.—The contracts for Indian supplies have been awarded to Hull, Trowbridge & Co., I. G. Baker & Co., Cochrane, Rancho Co., Robert Scott and the Walrood Ranch Co. The contracts were granted only on the condition that the beef must be Canadian raised. Prices were rather lower than last year. Power & Company, an American firm were the lowest tenderers, but as they had no stock in the Territories their tender was ruled out.

Hon. Frank Smith has been appointed to the position in the Grand Trunk Canadian Board of Directors in room of the late Mr. Ferrier.

#### Mr. Blaine's Letter.

PITTSBURGH, June 16.—The letter from Mr. Blaine is in terms that cannot be mistaken. In neither of the previous epistles from him at Florence and Paris did Mr. Blaine state positively that he would not accept the nomination if tendered him. In the letter that Chairman Jones has this declaration is most emphatically made. "Under no circumstances," Mr. Blaine says, will he permit the use of his name at Chicago, nor would he accept were the presidential nomination unanimously tendered him. He further goes on to indicate that Senator Sherman, of Ohio, is his preference and advises the convention to place him at the head of the Republican national ticket. Continuing, Mr. Blaine gives quite a lengthy dissertation on the tariff, touches on the important issues of the day and predicts a glorious victory for the Republican party in November. He contrasts the campaign of 1884 and 1888 and shows that this year all the odds are in favor of the Republicans. It is said that Senator Sherman and Mr. Blaine have understood each other on the question of precedence for several months and that even before Maine's man's departure for Europe, arrangements had been entered into between the two whereby Mr. Sherman was to receive Mr. Blaine's support for the nomination and election, and that in case of his elevation to the White House Mr. Blaine would be his Secretary of State.

#### Recent Appointments.

It is currently rumored that the present commissioner of Indian Affairs is Mr. Hayter Reed; that his assistant is Mr. Forget and that the retiring Indian Commissioner will be Minister of the Interior.

With the appointments of Mr. Dewdney and Mr. Hayter Reed we have no reason to find fault, but it appears strange how Mr. McGill, who has been the heart and vitality of the Indian Department for years, should be passed over. Mr. McGill is, without exception, the best Indian official in the Northwest Territories and it should prove most conducive to the department in which he has exercised such a popular influence that his services would be properly recognized.

Mr. McGill is now a factor in Northwest Indian matters that cannot easily be eliminated without material injury to the Government, and a thorough recognition of his services is just what Northwest people require. Promotion by service and merit is a great requirement in a new country, and we trust the present government will not at the present juncture, sanction appointments not in accord with the tone of present territorial public feeling.

To the Editor of the Calgary Herald.

Sir:—Will you allow me to insert these few lines in your paper, hoping they may tend to settle the old and vexed question of the brass band. The I. O. O. F. brass band as it is now called is thought to be on a good substantial footing this is true in many respects, but there are still one or two obstacles in the way of a good healthy life for the band. The first of these is the want of good steady employment to good brass bandmen. The I. O. O. F. have done a great work in taking over the band property, but if they are not assisted by the population at large they can hardly be expected to keep a band permanently.

What is more feasible and proper than a union of the merchants and owners of industries in this town, the object of which would be to give to bandmen an occupation when they can, with this provision of course, that the applicant be a man of steady habits. If this course were adopted it would insure a good band, as it is now, the band may be engaged to play on a certain day, and when that day comes the bandmaster may find one or more of his principal men gone, men in fact whose places he cannot fill, or if he can, he is shy of asking any man to lay down his instrument and take a drum for instance, most of the men would not do it any band. Then there is a delay, presently the sports committee come roaring into the room, and commence at once to tear the poor bandmaster to pieces, and think that he should make a bass player a drummer, a cornet or anything else, just as they would themselves make a soap bubble. I hope the leading spirits of this town will look to this. The next question, Mr. Editor, relates to the band or rather the present numbers of it, and to them I would say a few words, first, come to practice and give the teacher an opportunity of fulfilling his duties. Second, try by one united pull, on the rope of union and brotherhood to draw into your circle the assistance, the gratitude and the respect of the citizens, resolve to drop self as much as possible when the band is concerned, especially such sentiments: I want to play on that band stand, and I know another man that wants to play, another person wants to play here and another there. If the band stand does not suit people in other parts of the town at a distance from it, remember that it may not suit one single person at Banff, yet that is no reason why it should go there. It is not customary for the average man to build a house for his neighbor. Those people who have so much to say about the location of the bandstand had better go to work and erect one and they will get their share of music. The question of a bandstand has been discussed for two years, and it might have been discussed for two more without having one erected, if it had not been shown that there was a little energy left and that Messrs. Ogburn and Fitzgerald possessed their share of it. Let us have more of them if possible, and the band will pay them all a visit. Now Mr. Editor, I think that the questions here put forth are worthy of the greatest attention by citizens and bandmen. There is at present a goodly gathering of young men of no mean talent to the musical line. Most people do not and cannot understand the disaster of breaking these ranks every month; a disaster that is inevitable if something is not done towards settling the questions exposed here. The present bandmaster, Wm. Scollen, is giving or has commenced to give two extra practices in the week, this is no small undertaking, as he has got a number of new hands to drill from the very foundation; whatever his pay will be I do not know, but he should receive at least the encouragement of the citizens and the strict attention of the band. Hoping Mr. Editor that I have not trespassed too far. Yours truly,

HARISON.

There will be a meeting held to-morrow, Wednesday evening, after the prayer meeting, in Knox church, to complete arrangements for the holding of the lawn party and strawberry festival on the 2nd July.

Mr. A. J. Lawson, of Montreal, manager for Canada of the Edison electric light system arrived from Banff yesterday morning, where he has been superintending the introduction of electric light into the new C.P.R. hotel at the National Park.

Don't the C. P. R. want this country settled? We notice by the Morning Call that O'Connor Power was shown all round about Winnipeg, with the view of furthering Mr. Power's scheme of immigration. When Mr. Power was in Calgary he travelled incog. Had not the writer met Mr. Power years ago in Ontario we might not have known who it was that accompanied Mr. Niblock.

In the matter of securing a permanent road to the cemetery, which was brought up by Councillor Orr at the last regular meeting of the council, and promptly acted upon by them at the same sitting, and a petition sent to Governor Dewdney about it. A telegram was received by trail commissioner McMillan from the Governor on Saturday evening to the effect that he approved of having the road laid out by the Government surveyors now in the neighborhood, and had sent a dispatch to Ottawa asking the Government to instruct surveyors Dennis and Green to locate it before they finish up their work in this district.

His Lordship Bishop Pinkham of the diocese of Calgary and Saskatchewan, left Winnipeg Sunday night to attend the Pan-An Anglican conference which meets shortly at Lambeth, London, Eng. Up to the latest report we have, one hundred and fifty Bishops of the English church had signified their intention of being present, and many others from the four quarters of the world are coming. It is expected that this conference of Bishops will be the most largely attended of any since the reformation began. Matters of the utmost importance to the Episcopal church and the whole religious world will be discussed by the collected wisdom of this body of divines, than whom no greater body of profound scholars and theologians could be got together from any organization in the world.

Councillor Linton sat up with his brother councillor, Mr. McCallum last night, the latter though very weak is now perceptibly improving.

Mr. George Alexander, of Mosquito creek, started on a trip to the coast this morning. He expects to return in ten days, and then leaves for Dublin, Ireland.

At the meeting held last night by the Ladies Aid Society of Knox church, it was decided to fix Monday evening, the 2nd of July for the strawberry festival and lawn party. Committees of ladies and gentlemen were appointed to make the necessary preparations.

A telegram has been received from the department of the Interior, Ottawa, stating that the last proof of the "Alberta pamphlet" was being read. It surely cannot be long now before the work is placed before the public, and so what was intended for the use of those immigrating this year may be in time to do service for next year.

The Canadian Pacific Hotel at the National Park, Banff, although not fully opened to the public, is already winning golden opinions under the courteous and able management of Mr. Halliday. On Saturday last, half a dozen gentlemen went from Calgary to Banff to enjoy a couple of days rest from business. The opinion of these gentlemen who know the watering places of this continent is worth having. They one and all express themselves as delighted with the hotel and its appointments, but more than all with the gentlemanly treatment they received from Mr. Halliday.

The names of the ladies and gentlemen who have kindly consented to assist at the benefit concert in aid of Mrs. Frank Fields on the 19th inst., are:—Mrs. J. R. Costigan, Mrs. Doughty, Mrs. Douglas, Mrs. Beattie and Mrs. Millward, Miss Dowling, Miss James, Miss Proctor, Miss M. Proctor, Miss B. Parrish and Miss Patterson. Dr. Rouleau, J. R. Miquelon, Mr. Brealy, J. S. Douglas, Mr. Wellisome, Mr. Harper, Mr. Kirk, Mr. Ellerton, Mr. Rankin, Mr. Dyer, Mr. Innes, Mr. Pierpoint, Mr. Kelly, Mr. Parlow, Mr. Atkinson, Mr. Glanville and Mr. Crane, who is musical director.

Seeding is very nearly all done. The opening of the season was later than usual, but the frequent falls of rain that visited the country since the snow disappeared have kept the ground in good condition, and the crops that are already planted, are well up and give every promise of an abundant yield. A much longer area will be put under cultivation than last year. Wheat looks particularly well, it being between five and six inches in height some of the earlier sown fields. Altogether the season opens most propitiously, and as there are seldom more than two dry years in succession—and then only at long intervals—the prospects of a full crop are good.—Saskatchewan Herald

The meeting was convened in pursuance of notice given some time ago. There was a fair representation of members present. Mr. George Hope Johnston, who has acted as secretary hitherto was not present, and Mr. H. D. Winters was chosen to fill the position. The interests of the wool industry were pretty well discussed in all its phases by those members who were present. The best means to obtain a fair price for that staple commodity, wool, was the subject which received the most attention from the speakers. The general opinion expressed was that the best way to obtain a good return for the wool of the district would be by the establishment of woolen factories at Calgary or other good points, so that the wool could be used near where it is produced and thus save the enormous cost of shipping it to the eastern markets, and then paying freight on blankets and other woolen goods coming in from the east to supply the demand for them here. It was the unanimous opinion of the association that there would be a large fortune for any one with capital and experience to go into the manufacture of woolen goods in Calgary, "and so say we all." It is but a short time since we wrote editorially on this subject. The views uttered at this meeting endorse our opinion as set forth in the HERALD as far as they go, but we went further than the meeting did. We hold and said that if no individual or company would take advantage of the fine opening for a woolen works which Calgary affords, then the as-

sociation should combine and put up a factory themselves as a joint stock concern, and then get all there is in the wool for themselves, we commend this view of the case to the serious consideration of the association.

A meeting of the Wool Growers Association of Alberta was held at the Royal Hotel, Calgary, on the evening of the 11th inst., the report of which we were unable to publish yesterday, on account of our typographical staff being a man short.

After the prayer meeting to-night in Knox church, a meeting will be held under the auspices of the Ladies Aid Society to make arrangements for a strawberry festival and promenade lawn party. A good attendance, especially on the part of members of the society is desired.

It will be remembered that about a year ago Mrs. Fullem had a fine cow killed by the C. P. R. Recently, when Mr. Supt. White was in Calgary, Mrs. Fullem interviewed him, and explained to him the law respecting the liability of railways for damages etc. This morning Mrs. Fullem received a cheque for \$25 for the cow.

A magnificent stallion passed through Calgary on this morning's freight train. It is the property of Mr. C. M. Beak, of British Columbia, by whom he was imported. This horse is 2 years old and cost in England \$3,500. He is Shire bred. Mr. Beak also imported with the horse 4 splendid young brood draught mares.

A lot of horses were stolen from Morley a few days ago. Constable Watson, of the N. W. M. P., and a party of Indians started in pursuit. After going 30 or 40 miles constable Watson is reported to have started back to Morley, but up to the present, we understand has not reached Morley. Sergeant Bloomfield has gone to the latter place to enquire into the matter.

Mrs. Harper, who died this forenoon, leaves six children, the oldest of whom is 14 years and the youngest 10 days. The funeral will take place at nine o'clock on Friday morning from St. Mary's church, Calgary, to the mission cemetery. Friends and acquaintances are requested to attend the funeral without further notice. Mr. Harper, who is a well known and respected citizen of Calgary, has the sympathy of the community on behalf of himself and his little ones in their bereavement.

The collecting committee for Dominion day sports wish us to announce that subscribers to the fund will be waited on next Saturday afternoon for payment of their subscription, which they will please not forget to have on hand. It is very important to have the funds collected at once so that the committee will be able to complete their arrangements. The track is now being put in good order. The night before last there were 7 or 8 local horses on the track, and last night about a dozen were doing some very good speeding.

The wedding in the Methodist church last evening was witnessed by a large number of people, in fact the house was crowded. The ceremony was conducted entirely in German, which being the mother tongue of the contracting parties will make this bargain specially binding. The Rev. Mr. Peterleit, who tied the nuptial knot, is a general missionary who ministers to the spiritual wants of Germans of all denominations in Manitoba and the Northwest, he was on a trip between Winnipeg and the coast, and it was arranged to have him stop over at Calgary to unite this couple after the custom of their native land and in their own language. The choir of the church sang an appropriate anthem for the occasion. The young couple received a large number of friends at their new home in the evening, when a very pleasant time was spent.

Our readers will be pleased to learn that arrangements have been made for the erection of a stand for the Odd Fellow's band, on which they propose to play at stated times in the evenings. The money to defray the cost of erecting the stand has been raised by subscription. It is proposed to erect the stand on the vacant space between the railway passenger station and Atlantic avenue. The mayor, who has interested himself very much in this matter has secured permission from the C. P. R. authorities to have it erected on the company's land, subject to removal at any time the company want to use the land for other purposes.

Col. Herkimer and Supt. McIlree went to Banff on the one o'clock express this morning.

A General meeting of the members of the Calgary cricket club will be held in Pettit & McKinnell's office, to-night at 8 p. m. All members are requested to attend.

The train which passed through west this morning was one hour and thirty minutes late, it was a very heavy train comprised of 5 passenger coaches and 2 sleepers, well filled.

The disputed house case is still unsettled. The C. P. R. Co., have put on a night watchman to prevent the claimants doing like the Arabs with their tents. Fun is looked for very soon.

Mr. and Mrs. J. Sims, who formerly resided in Calgary, and more recently at Fort Macleod, passed through here this morning for Victoria, where Mr. Sims will engage in the tonorial profession.

Our old townsman, Mr. B. M. Godsal, who has been on a trip to his native land, the "sea girl isle" returned to Calgary by this morning's express train.

A political meeting was held at Spring Bank last night, which was addressed by Mr. Cayley and Mr. Reilly, two of the candidates for local parliamentary honours. As our reporter went fishing after the meeting, and has not yet returned, we are unable to give a report of it.

One hundred and seventy five ounces of gold were taken from 38 tons of quartz at the McGuire mine, Whitburn, Nova Scotia, during one week, in the month of May, this at \$20 per ounce amounts to \$3,500. The above is the product of only one out of the many mines being worked in Nova Scotia, and yet we have no mint in Canada.

At 7:30 a. m. a special train consisting of sleeper, dining and dining car came in from the east, and after remaining ten minutes pulled out for the coast. On board the train were Van Horne, vice-pres. of the C. P. R., Supt. Whyte and Assistant-Supt. Niblock, Prof. Dawson, of the geological survey and Mr. Murray, known as Adriandrick Murray, from the famous discriptive letters he has written about the mountain scenery of New York State. If Mr. Murray will write as well in proportion about our Rocky Mountains as he has done about the hills of New York, it will be well worth reading. Mr. Murray was once a celebrated pulpit orator in connection with the Congregational church of the United States. There were several other gentlemen in the party. We understand that they are going to Vancouver in connection with the Onderdonk contract arbitration of which we gave full particulars some time ago.

The arrangements for the benefit concert in aid of Mrs. Frank Field, on Tuesday the 19th inst., is going on splendidly. A very successful practice was held last night, when nearly all the performers were present. There has been a unanimity of action and eagerness displayed by nearly all the musicians and vocalists in town to assist in every way possible in furthering this most commendable undertaking, which promises to make it the model concert of the year, every person, one meets say they are going to that concert. The Odd Fellow's brass band will dis-course some fine selections. Mr. H. Kirk, the well known cornet soloist will assist. Mr. Dyer, Mrs. J. R. Costigan, Mr. Weatherly and Mrs. Beattie will be the piano accompanists. Dr. Rouleau will sing (in French) "La Marseillaise." He will be joined in the chorus by J. R. Miquelon and the whole company. We expect to give the names of all the artists who will take part, in to-morrow's paper. Plan of the Opera House and tickets at the bookstore of Linton brothers, Stephen avenue.

At the residence of Mr. John Ellis, Calgary, Mr. William Dodd, of Birkenhead, Cheshire County, Eng.; who died this morning, was secretary of the Liberal Association of Birkenhead. He came to this country as agent or reporter for the press association of the City of Chester, and had already travelled extensively in the interest of the press before he was taken down with the sickness which resulted fatally, while yet in the prime of life, being only about 35 years of age at the times of his death. The immediate cause of his illness was having caught a severe cold while travelling on a railway train in California. On the train by which he was travelling was a woman with some children who had no wraps and the air being cold and damp, generously gave them the use of his railway rug, leaving himself exposed to the damp air, he contracted a bad cold which brought on low typhoid fever. He first became ill in San Francisco, but in the course of two weeks got enough better to renew his journey, he came on to Calgary, but on arriving here he became worse, being confined to his room from the time he got here till he died. Mr. Dodd was a married man his wife being in England, but leaves no children. The doctor who attended him in his sickness and those who have seen him here speak of him as a man of more than ordinary ability and acquirements, possessing an amiable disposition.
